

## CT12-BU Hydraulic Crawler Mini Excavator

|                 |  |                                    |
|-----------------|--|------------------------------------|
| Specification   | Overall Weight(KG)                     | 1200                               |
|                 | L×W×H (MM)                             | 3053 x 850 x 2458                  |
|                 | Rated bucket capacity(M <sup>3</sup> ) | 0.3                                |
|                 | Max. Digging Depth(MM)                 | 1809                               |
|                 | Track Length(MM)                       | 1404                               |
|                 | Track Shoe Width(MM)                   | 180                                |
|                 | Max. dump height (MM)                  | 2039                               |
|                 | Bucket indicator                       | Yes                                |
| Engine          | Model                                  | YANMAR 3TNV70                      |
|                 | Rated Power(KW)                        | 10.3                               |
|                 | Travel Speed (KM/h)                    | 1.6/3.0                            |
|                 | Type                                   | 3 Cylinder                         |
|                 | Engine starting mode                   | Electric                           |
| Steering system | Type                                   | Articulated and hydraulic steering |
|                 | Tail Swing Radius(MM)                  | 550                                |
|                 | Min. ground Clearance(MM)              | 130                                |
